

Product Information Sheet

AWC® D-307

Microbiocide

ADVANTAGES

- Broad spectrum liquid microbiocide for use in membrane systems and a variety of water treatment applications
- Causes immediate inhibition of growth upon coming in contact with the microorganisms
- Reduces the frequency of CIP cleanings
- Compatible with NF, MF, UF, and RO membranes from all major membrane manufacturers
- Effective at low concentrations
- Certified by NSF to NSF/ANSI/CAN Standard 60

TYPICAL PROPERTIES

Appearance	Light yellow to brown liquid
Odor	Chlorine-like
Solubility in water	Fully Miscible

PACKAGING

5 gallon pails, 55 gallon non-returnable plastic drums and 275 gallon totes

CERTIFICATIONS

Certified to
NSF/ANSI/CAN 60

SAFETY & HANDLING

Corrosive. Causes irreversible eye damage and skin burns. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Harmful if swallowed. For more information, see the Safety Data Sheet provided with this product.

CHEMICAL FEEDING AND CONTROL

Add 3 - 25 ppm of AWC® D-307 microbiocide (0.20 - 1.68 ppm total chlorine) into ultra filtration or reverse osmosis systems by either continuous feed or periodic injection. Compatibility of AWC® D-307 microbiocide with reverse osmosis membranes should be confirmed with membrane manufacturer or an AWC technical representative.
